EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 8, page 32, line 14, before "final verify threshold", replace "a" with – said--.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-35 recite a method for programming non-volatile memory, a method for creating a non-volatile memory system and a non-volatile storage system. The methods and the system comprise the steps of determining that the non-volatile storage element has reached an intermediate verify threshold, the intermediate verify threshold is different than a final verify threshold, performing only one additional programming operation at a reduced level on the non-volatile storage element in response to the step of determining, and inhibiting programming of the non-volatile storage element after performing the only one additional programming operation regardless of change in threshold voltage for the non-volatile storage element response to the one additional programming operation. The method for creating a non-volatile memory comprises the steps of setting a final verify threshold for a programming process, and setting an

intermediate verify threshold for the programming process so that a set of one or more non-volatile storage elements reach the intermediate verify threshold one programming operation will cause the set of one or more non-volatile storage elements to reach the final verify threshold.

The prior art does not teach or suggest the above steps and elements as recited in claims 1-35. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
